

Our mission, as always, is to protect, care for, and support children particularly those of veterans and military families.

April is the month for Military Children. Please think of ways to promote the military children's table. This helps everyone to get a bigger picture of what these children sacrifice that most of us take for granted.

April 15th is purple up day so please support this and share your pictures too show how the Department of CA represents.

Please remember the National Organization is still asking for donations to the Children Welfare Foundation. Any Unit that supports the cause and sends in \$1 per member is eligible for a special banner. The form to submit is on our website.

April is Children & Youth month, and I am hoping to make it very special this year- more to come on that!!
